

Roy, James Brett Smith, Mark Stewart, Dee Wilde and Mike Armanini, of the Disaster Medical Assistance Team, in their mission to recover those lost in the World Trade Center. Smith, who has been in New York for a total of two months, noted that "every member distinguished themselves on this difficult deployment and served the country and the National Disaster Medical System with honor . . . I am proud to report that the state was represented in a splendid manner."

At a time when tragedy was at its greatest, Region VI responded swiftly with deep compassion for those they had never met. Their effort represents not only the spirit of Louisiana, but the spirit of our nation as well.

TRIBUTE TO LARRY W. WHITE

HON. MARION BERRY

OF ARKANSAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, January 29, 2002

Mr. BERRY. Mr. Speaker, I rise to pay tribute to a great American citizen, and I am proud to recognize Larry W. White in the Congress for his invaluable contributions and service to Arkansas and our nation.

Larry has spent over 30 years with the Arkansas Soil and Water Conservation Commission (ASWCC), and currently serves as Assistant to the Director for Conservation. His career began in 1963 with the Arkansas Geology Department, and he moved over the ASWCC in 1970 as a Land Resource Specialist.

I served on the Arkansas Soil and Water Conservation Commission from 1986 until 1993, including a term as chairman, so I can personally testify to Larry's professionalism, integrity, and outstanding skills and talents. But you don't have to take my word for it, because last year he was named Outstanding Conservationist by the Arkansas Association of Conservation Districts for "his lifelong contributions and accomplishments to state and national soil and water conservation."

Part of Larry's distinguished record includes participating in the development and biennial update of the Arkansas Conservation Strategic Plan, which led to a 300% increase in funding for conservation districts in 1997; providing leadership in instituting a plan for annual district program evaluations and competitive allocation of funds to districts; providing leadership in the successful implementation of an Emergency Watershed Protection Project that aided poultry farmers after catastrophic losses in 2000; serving as State Floodplain Management Coordinator for 16 years; serving on the Board of Directors of the Association of State Floodplain Managers for two years; and helping to create the Eastern Arkansas Water Conservation Project. He also represents ASWCC on the Arkansas Conservation Partnership and the National Watershed Coalition.

In addition to these conservation responsibilities, Larry also found time to serve on the Arkansas Mental Health Board, as well as the Professional Counseling Associates Board of Directors, including two years as its president. He lives in Lonoke with his lovely wife Annette, and with her he has three daughters, one step-daughter, two step-sons, three granddaughters, two grandsons, three step-grandsons, and one step-granddaughter.

Arkansas is a better place because of Larry White and I am proud to call my friend.

On behalf of the Congress, I extend congratulations and best wishes to this faithful public servant, Larry White, on his successes and achievements.

A TRIBUTE TO THE LATE DR. WILLIAM R. FAIR

HON. DAN BURTON

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, January 29, 2002

Mr. BURTON of Indiana. Mr. Speaker, I rise today to pay tribute to a great pioneer of medicine, the late Dr. William R. Fair, an accomplished cancer surgeon, who lost his brave battle with colon cancer on January 3, 2002. Dr. Fair was a tireless advocate for the scientific study of complementary medicine.

From 1984 until 1997, Dr. Fair held the position of chairman of urology at Memorial Sloan-Kettering Cancer Center. Dr. Fair was a fruitful researcher who developed surgical techniques and treatments for prostate cancer. In collaboration with his colleagues, specimens of his tumor were used to develop an experimental vaccine for his cancer. Unfortunately, Dr. Fair never had the opportunity to use it.

In 1995, Dr. Fair was diagnosed with colon cancer. In 1997, the cancer returned and according to his own words, "there was little chance of a cure." That's when he embarked on medical approaches outside the confines of conventional cancer treatments. He began a regime of exercise, meditation, herbal treatments and a change in diet. He noted that he felt better and the tumors did shrink, if only for a while. Dr. Fair embraced complementary medicine, which is standard therapy matched with unconventional treatment. This practice, as Dr. Fair used to point out, is different than alternative medicine. As a medical scientist, he tested his approaches and was adamant about holding unconventional therapies to the same high standard as conventional therapies. In 2001, Dr. Fair and his son helped found the complimentary medicine center called Health, which is located in New York City. Dr. Fair firmly believed that unconventional therapies extended his life and to quote him "even if they can't cure, they can certainly help heal." In fact, his own surgeon was astonished as to how long Dr. Fair survived after his 1997 recurrence of cancer.

Dr. Fair was a Member of the White House Commission on Complementary and Alternative Medicine Policy. He received his doctor of medicine degree from Jefferson Medical College in Philadelphia and did his residency in urology at Stanford University. He is survived by his wife, Mary Ann, his son, his brother, Charles, of Norristown, PA, and his sister, Margaret Murtha, of Turnersville, NJ.

I strongly urge my Colleagues to take a closer look at the promise of Complementary Medicine in the treatment of disease, and the work that Dr. Fair brought to this area of discovery. Dr. Fair will be sorely missed.

HONORING THE ACHIEVEMENTS OF MYERS PARSONS

HON. BART GORDON

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Tuesday, January 29, 2002

Mr. GORDON. Mr. Speaker, I rise today to recognize the outstanding contributions that my cousin, Myers Browning Parsons Sr., has made to the Rutherford County community.

Mr. Parsons grew up in Rutherford County, as did I, and has spent most of his life giving back to the community that has given so much to him and his family. Fortunately, I lived near Mr. Parsons, grew up with his children and considered him a second father. A graduate of Christiana High School, Mr. Parsons excelled in basketball and football while attending the University of Tennessee at Martin, where he received the university's Athletic Award.

The World War II veteran has been a teacher, farmer and business owner, prospering in all three vocations. He also has been actively involved in many of the community's civic boards and organizations. Mr. Parsons has served on the Rutherford County Board of Education, the Rutherford County Chamber of Commerce Board of Directors and the Christy-Houston Foundation Board of Directors. He has coached Little League baseball, as well, and is a member of the Kiwanis Club.

For the past 26 years, Mr. Parsons has served as a Rutherford County road commissioner. And he is the chairman of the Rutherford County Equalization Tax Board, representing my hometown of Murfreesboro. This past year he served as the chairman of the Building Committee of the Oaklands Historic House Museum. He is also a member of the University of Tennessee's Institute of Agriculture Development Board.

Constantly striving to help his fellow man, Mr. Parsons has never shirked civic responsibility, even while recovering from lung cancer and a serious heart attack. He now pays close attention to his health and emphasizes the importance of receiving good health care and participating in a quality physical fitness program. As a tribute to his amazing fortitude, the Rutherford County Chapter of the American Heart Association will honor Mr. Parsons on Saturday, February 9, during this year's Heart Ball. I congratulate Mr. Parsons for his unselfish and untiring service to his community and the motivation he has stirred in others.

GIRL SCOUTS GOLD MEDAL RECIPIENT: DANIELLE RUSSO

HON. STEVE ISRAEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, January 29, 2002

Mr. ISRAEL. Mr. Speaker, it is with great pride that I rise today to recognize one of New York's outstanding young students: Danielle Russo. In February, the young women of her troop will honor her by bestowing upon her the Girl Scouts Gold Medal.

Since the beginning of this century, the Girl Scouts of America have provided thousands of youngsters each year the opportunity to make friends, explore new ideas, and develop leadership skills while learning self-reliance and teamwork.
